Kameron Galm

Healthcare Data Analyst | Medicaid Finance and Policy Consulting
Vancouver, Washington, United States

Summary

With a solid foundation in data analytics and actuarial science, my work at Milliman focuses on Medicaid finance and policy consulting for Home and Community-Based Services (HCBS), where I transform complex health data into strategic solutions to provide direction and guidance to our clients, helping them thrive in even the most ambiguous administrative environments. Our team of talented professionals is dedicated to optimizing healthcare delivery and cost management, and is committed to providing Solutions for a World at Risk.
